SAPPORO CITIZENS DISASTER PREVENTION CENTER

The Sapporo Citizens Disaster Prevention Center is a facility where visitors can gain knowledge of fire and other disasters, as well as learn about what to do should disaster strike, through various simulations and hands-on activities. Come and increase your awareness of fire and disaster prevention!

GUIDE BOOK

Watching, Touching and Experiencing

Climb aboard a fire engine

Climb aboard an actual turntableladder fire engine. Operate the siren and listen to the radio transmission.

6

Exhibition corner and display of disaster prevention goods

5

Disaster prevention city Sapporo

Operate a model helicopter and "fly" over the city of Sapporo.

1

Natural disaster simulation corner

Experience virtual natural disasters such as tsunamis, landslides and floods through realistic 3D video.

The Sapporo Citizens Disaster Prevention Center is a hands-on learning facility where visitors can learn about fire and disaster prevention and what to do in the event of a disaster through various simulated experiences.

7

Earthquake simulation corner

Experience tremors ranging from 3 on the seismic intensity scale up to 7, the same intensity as that of the 2011 Great East Japan Earthquake.

8

Hands-on fire extinguishing corner

Experience extinguishing fires by aiming mock fire extinguishers at images of fire displayed by projection mapping.

9

Smoke evacuation simulation corner

Experience a smoke evacuation and review your actions with our video monitoring system.

3

Learning Corner

Learn about fire and disaster prevention through exhibition panels.

10

Emergency simulation corner

Experience hands-on first-aid for simulated cardiopulmonary resuscitation and AED (Automated External Defibrillator) training, using special practice mannequins.

11

Storm simulation corner

Wear 3D glasses to experience huge storms with winds up to 30 meters per second!
